

Chapter 2

p. 48 TLB Break the line by beginning a new paragraph with the text: The theorems involving two or ...

p. 52 Misalignment. In Fig. 2.2 (b) the gate (triangle-shaped) with input y should be moved vertically to align with the small circle.

p. 55 In the figure in Practice Exercise 2.3, interchange the labels $x'y$ and xy' .

p. 55 In the figure in Practice Exercise 2.4 replace the exclusive-or gate by a nor gate.

p. 58 In the section labeled Sum of Minterms, 5LT, Change " 2^{2n} minterms" to " 2^n minterms".

p. 61 4LT Change "canonic form" to "canonical form".

p. 62 3LT Change "**Answer:** $F' = \pi(0, 4, 6)$ " to "**Answer:** $F' = \Sigma(0, 4, 6)$ ".

p. 64 In Practice Exercise 2.11 change the answer to the following:

$$F = (x + y + z)(x' + y' + z)(x' + y + z)(x' + y + z')$$

p. 64 In Practice Exercise 2.12, revise the figure by replacing the label ACD' with ACD .

p. 69 In the top circuit in Figure 2.6, change its bottom input label from y to z.
